

About Your Software Titles

Your iMac computer came with a variety of software applications. Some applications are already installed on your computer's hard disk; others you must install from the application's CD or the software install CD that came with your computer.

For information on installing software, see the Read Me document or user documentation on the application's CD. Some products may also include information about installation in print documentation that came with your computer.

If you have problems with non-Apple software, contact the software publisher using the support information below.

Important Always contact the software publisher if you need help with your software product. Apple cannot help you with software products from other companies.

Note: Every effort has been made to ensure that the information here is accurate.

Applications Installed on Your Computer

■ **AppleWorks**

The best-selling Mac OS application ever. Word-processing, spreadsheet, database, painting, and graphics applications in one easy-to-learn program.

Apple Computer, Inc.

World Wide Web: www.apple.com/support

Telephone: United States, 800-500-7078; Canada, 800-263-3394

Information via fax: 800-510-2834

Note: When you register this application, use your iMac hardware serial number as the AppleWorks serial number. Your computer's serial number is located on a label inside the port and connector area. To view the label, open the port cover door on the right side of your computer.
